Listed in Product Approval Form.

Description of change

Schaffner has been using T28 terminals for years. Now we are going to add the second source from the new vendor and different production place.

The new material was tested by Schaffner internally and externally as well and passed all the tests.

Material characteristics:

	Actual	Second source
Manufacturer	Tooltechnik Kft.	Tianlu CN
Material	CuZn39Pb3 H090	CuZn39Pb3 H090
Surface	Cu 1-3µm / Ni 3-5µm	Cu 1-3µm / Ni 3-5µm
Standard	DIN EN 12164	DIN EN 12164
Thread	M10 / L=18mm	

Reason for change

To ensure lead-time and increase filter availability, it was decided to add a second source for T28 terminal. Schaffner will allocate usage on both T28 vendors to guarantee on time availability of affected products.

Impact for the customer

No impact on specifications nor performance of final product. Increased on-time delivery of products.

Identification

No visual changes on products.

Estimated Schedule

Immediately after customer approval. Dependent on depletion of current inventory of material, customer may continue to receive current material beyond the implemented date.

Customer enquiries

You may address any technical enquiries regarding this PCN by sending an E-Mail to pcn@schaffner.com. Please refer to the "Change number" on page 1 for faster response.

Quality assurance measures

Application of ISO9001:2015 and exceeding Schaffner standards for outstanding quality in all involved design centers and manufacturing locations.
